The Company

About Our Brand

Where It All Began

Our journey began in Cape Town with a passion for space-saving, multi-functional furniture. We aimed to maximize living spaces while minimizing environmental impact, delivering superior service along the way. Our motto: "furniture when you need it, and more space when you don't."

Clever furniture can change more than a room. It can reduce clutter, improve everyday comfort and give you greater freedom to live, work and connect at home. At the same time, it reduces the environmental impact.

Our History

Our history is rooted in Cape Town, where our journey began. With a dedication to space-saving, multi-functional furniture and a commitment to local sourcing, we've evolved into SpaceSave.

Our story is one of innovation, environmental responsibility, and a mission to enhance living spaces, with real local support whenever help is needed.

Our Mission

Our mission is to revolutionize living and working spaces by providing innovative, space-saving, and versatile furniture solutions. We are passionate about our country and are a member of Proudly SA.

Our goal is to create more room for everyday life. Rather than living in a big place just to accommodate your furniture, it enables you to choose the place you like.

Our Vision

Our vision is to lead the way in transforming living and working spaces. To make spatial freedom possible for more people through locally made furniture that adapts and leads to a better quality of life.

We help people feel more free, comfortable, capable and in control of the space they call home.
